

MARK LEMARR

A PROVEN PUBLIC SERVANT

Most candidates claim to share our conservative values, only to change and betray them after taking office—often due to lobbyist money. As our next State Senator, Mark LeMarr will be different. He believes in old-fashioned public service, the way it used to be done, and **he will refuse all money from lobbyists and their employers**—proving to voters that his first commitment is to We the People and the principles we value.

REPUBLICAN MARK LEMARR: A PROVEN PUBLIC SERVANT

A HISTORY OF SERVICE

Mark LeMarr has been married to his wife, Debbie, for 37 years. He is a proud father of six and grandfather of four. A 1981 graduate of Guthrie, he earned a BA in Pastoral Ministry and Evangelism and has served as pastor of Crescent's CrossPointe Assembly Church since 1989.

Mark is the Mayor of Cimarron City and has served for the last eight years on the Logan County Rural Water District #2 Board. He was President of the Crescent Chamber of Commerce for nine years and the Crescent Lions Club for two. He has also chaired the Logan County Hospital Foundation Board.

SERVING THE RIGHT WAY

Mark has always had a deep interest in real, actual public service. At the age of 16, he drove across the district campaigning for his scout leader, Frank Davis, in 1978, Davis' first election to the State House (*they are pictured above.*) But today's legislators have destroyed that public trust by constantly campaigning on our conservative values but then betraying them. Mark is one of a growing number of citizens who are stepping up to serve the right way—**by refusing all of the lobbyist gift giving and special interest contributions that are being given to officeholders**—and to set things “right” in the Legislature.

READY TO RESTORE TRUST

The current eight-year incumbent asks for our vote while purporting to hold our values, but in Oklahoma City, he regularly betrays those values with his votes—such as his vote to award Oklahoma driver's licenses to the illegal alien invaders of our nation. In 2024, the Oklahoma Conservative Index, Oklahoma's leading conservative scorecard since 1979, scored the incumbent at just 48% conservative. Only one out of 40 Republicans in the Senate had a lower score. Our district is not a liberal district—**we cannot continue to elect someone who does not represent our conservative values.**

“RIGHT” ON THE ISSUES

Mark is a steadfast defender of the right to life, the 2nd Amendment, limited government, lower taxes, making America healthy again and all things MAGA. A strong advocate for Oklahoma's rural way of life, **Mark will always oppose woke** and will stand up for landowners—opposing government overreach like the recent plan to install water meters on irrigation (*that plan passed the Senate after the eight-year incumbent failed to show up and vote.*) Mark supports a moratorium on the government-subsidized green energy land grab and wants to remove the power of private corporations to seize land through eminent domain.
